

The vision

CMU has a wide range of design exhibitions held throughout the year by different departments such as school of design, IDeATe, and other labs. However, there lacks a general website displaying information about ongoing exhibitions to the general public, and therefore oftentimes such exhibition is rarely known to people outside the department. Thus, I want to create the website -- CMU Art Gallery -- that include all the exhibitions and artists at CMU as well as merchandize for each exhibition.

Color Choice

Since the website is called CMU Art Gallery, my main color choice was dark red, which corresponds with CMU's theme color. Besides, I want the website to have a sleek and minimal feeling, so I did not add additional colors other than gray, black and white so as to really emphasize the red theme and the pictures.
